Telemedicine: Bringing Healthcare to Anyone, Anytime, Anywhere

The First Annual Rashid L. Bashshur Telemedicine Lecture

Keynote Speaker:
Andrew R. Watson, MD, MLitt, FACS
University of Pittsburgh Medical Center

Dr. Watson is a leader in applying health care technology to the delivery of high-quality, patient-centered medicine and plays a key role in developing telemedicine strategy and technology across UPMC.

• Board member, American Telemedicine Association
• Medical Director, UPMC Telemedicine
• Practicing surgeon, UPMC Division of Colorectal Surgery
• Chief Medical Information Officer, UPMC International & Commercial Services Div.
• Co-Manager, UPMC Global Care—enables international patients to conveniently access UPMC’s world-class care through both telemedicine and facilities in the U.S., Ireland and Italy
• Medical Director, Center for Connected Medicine—largest collaborative briefing center in the United States which promotes a new model of health care that seamlessly integrates information technologies to put patients at the center of care
