TAC TAC
The Adolescent Champion Teen Advisory Council

> TAC TAC is a diverse group of teens and young adults (ages 15-22) committed to improving adolescent health and well-being. We aim to voice the views of young adults through multiple projects that deal with the relationship between youth and their health care providers.

> We meet once a month on Saturdays from 11-4 to plan for three videos that will train health care providers on how to appropriately treat adolescent patients. Some of the proposed topics include: mental health, sexual health, self-advocacy, and gender identity & gender expression.

DEADLINE FOR APPLICATION: October 12, 2014
