

# GET READY. GET SET. GO BLUE!

## YOUR GUIDE TO GETTING THERE

### INTERVIEW DAY AT THE UNIVERSITY OF MICHIGAN MEDICAL SCHOOL

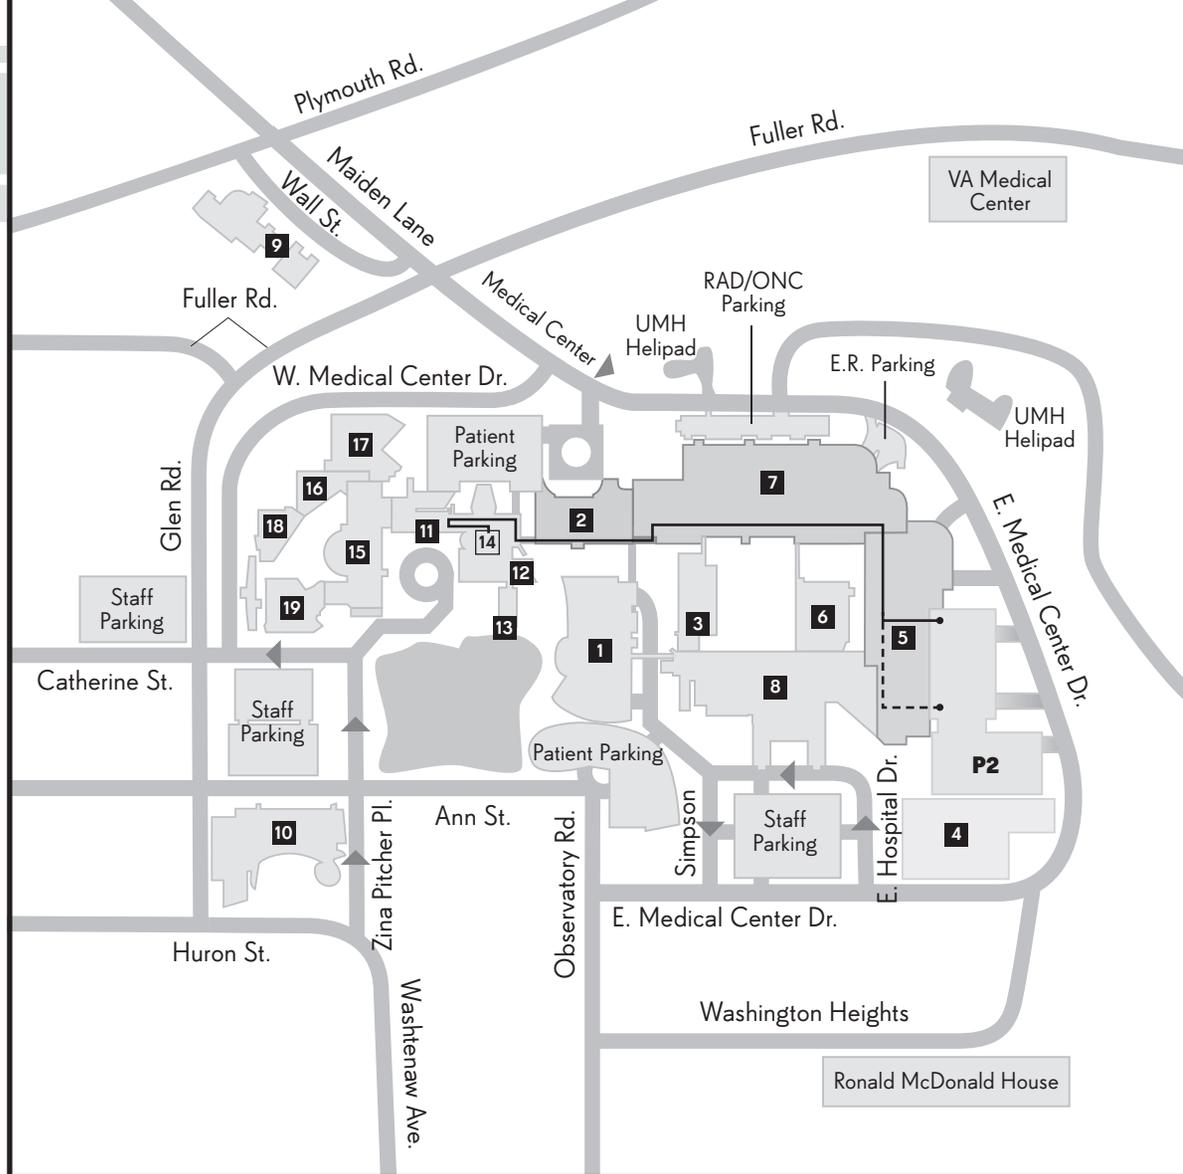

It's a big day full of challenges — first and foremost, you need to get from your car to your interview! This map is designed to help you get there, and to show you some of the facets of the school and health system along the way. **It takes about 15 minutes to walk from the parking garage to our door, so please give yourself plenty of time.**

### LET'S GET STARTED

Your Interview Day begins in the P2 parking garage. Be sure to get your bearings before starting out from the 2nd level.

### YOU'RE ON YOUR WAY

- Go through the Taubman Center **5** and follow signs to University Hospital **7**. If you need to get your bearings, check a map directory on the wall or ask at an information desk. Don't be surprised if someone asks you if you need help finding something. You'll pass the orthopaedic surgery, general x-ray and radiology clinics. Turn left at the end of the hall, then jog right/left to enter the hospital.
- Pass by the Gift Shop and the UH Café (a.k.a. the cafeteria) on your right. Be sure to check out the latest Gifts of Art exhibit. You can also see the C.S. Mott Children's Hospital and Von Voigtlander Women's Hospital from the windows overlooking the courtyard.
- Continue toward the Cancer Center **2**. You'll see photos of our graduated classes — all the way back to 1862. Go past the café on your right.
- At the end of the hall, make a right and then a quick left through the double doors. Make another left after passing the staff elevators and then right up the ramp.
- Admissions is near! If you look outside, we are just beyond the stone wall. You'll see the Frankel Cardiovascular Center to your left.
- At the top of the ramp, turn right and then go left through the double doors into the Medical School **11**.
- Go down the hallway and take the elevators on your right up to the 4th level. Turn left, then right. The Admissions Office **14** will be on your left.
- **YOU MADE IT!** We'll be sure to give you a parking voucher before you leave, so take a deep breath and enjoy your day.

## The C.S. Mott Children's Hospital and Von Voigtlander Women's Hospital

Since 1921, C.S. Mott Children's Hospital has treated children from all across Michigan, the United States and around the world. U-M is known for its advanced care for pregnant women, newborns and children, for research on health issues that affect them and for training the next generation of specialists.

To continue this tradition of high-quality care and research, the new hospital which was completed in 2011, features a 12-story inpatient tower and 9-story clinic tower, and incorporates many environmentally responsible features, in accordance with the LEED Green Building Rating System.

For more, visit [www.mottchildren.org](http://www.mottchildren.org)

## THE UNIVERSITY OF MICHIGAN COMPREHENSIVE CANCER CENTER

Last year, U-M Cancer Center provided more services to more patients and families than ever before with:

- 93,139 outpatient visits
- 51,884 infusion treatments
- 75+ community events sponsored
- 4,184 radiation consults provided at University Hospital and six off-campus locations
- 285+ cancer-related clinical trials available

TOP FIVE CANCERS DIAGNOSED AND TREATED: melanoma, prostate cancer, breast cancer, blood cancers and lung cancer

GET READY. GET SET.  
**GO BLUE.**  
**SEE THE SITES!**

The University of Michigan Medical School and Health System is full of amazing history, knowledge, technology, programs and care. In fact, it's one of the largest single-site medical centers in the world. As you make your way to your interview, here is more information about some of the sites you'll see.

### Gifts of Art

During times of stress and illness, the arts have the power to nurture and engage. Gifts of Art, one of the first and most comprehensive arts-in-healthcare programs, utilizes the arts to assist and enhance the healing process, reduce stress, support human dignity and renew the spirit. Patients, families and even caregivers themselves benefit from an environment infused with the arts.

Recently, the National Endowment of the Arts designated Gifts of Art as one of the outstanding "Arts in Healthcare: Best Practices" programs.

## THE SAMUEL AND JEAN FRANKEL CARDIOVASCULAR CENTER

**Each year, the Frankel Cardiovascular Center:**

- Treats more than 6,000 hospital inpatients
- Sees more than 35,000 outpatients
- Performs more than 800 open-heart operations on adults, and nearly 600 on children, as well as hundreds more operations throughout the Center
- Performs more than 4,800 electrophysiological studies and procedures
- Performs more than 800 vascular surgery procedures
- Conducts more than 2,700 interventional radiology procedures and thousands of diagnostic imaging studies

For more, visit [www.umcvc.org](http://www.umcvc.org)

### Innovative Renovation

Transforming 137,000 square feet of the Taubman Health Sciences Library into an interactive education hub reflects the University of Michigan Medical School's commitment to prepare students to be the health care leaders of tomorrow. With the availability of online health science journals and databases that can be accessed from anywhere, this conversion reflects the changing reality of medical training.

The proposed redesigned, multi-level library space will support active learning and collaboration with an expanded and upgraded clinical simulation suite, modern classrooms, small group learning and team breakout rooms. Upon completion, the building will qualify for LEED Silver certification.
