Holiday Scheduling Notes

Some clerkships may allow a bit more time off, but the listed times will be the minimum time that you will have for each of these holidays/breaks.

Subinternships

- Because of the increased level of patient care responsibilities on subinternship experiences, the student's responsibilities may take precedence over holiday time
- Students on subinternships must discuss any time off with the attending staff

MLK, Jr. Day

- The University and the Medical Center will host programs throughout the day, and all students are excused from classes and clinical responsibilities so that they may partake in these programs, except for subinterns, as noted above
