EXTRAORDINARY CARE FOR AN EXTRAORDINARY COMMUNITY

NORTHVILLE HEALTH CENTER
UNIVERSITY OF MICHIGAN HEALTH SYSTEM

NORTHVILLE HEALTH CENTER DIRECTORY 2014
M-LINE 800-962-3555
On behalf of the University of Michigan Health System, I want to tell you how pleased we are to be joining the Northville community.

With the opening of our new center, we are able to more easily connect with patients and colleagues in this area. To create a more ideal patient care experience, we’ve brought a number of specialty services for adults and children under one roof.

From our service hours to the organization of our parking lot, we’ve strived to make this facility and our specialists accessible to patients and providers in the Northville area. We hope to partner with local providers to deliver the same quality specialty care the University of Michigan has always offered, but now in a closer location for the convenience of both patients and referring providers.

We will be offering adult, women’s and pediatric specialty care including ophthalmology, infusion, a procedures unit, radiology and blood drawing suite, and a Comprehensive Musculoskeletal Center. In this directory, you’ll see a listing of all our services including providers and contact information.

If you have any questions about making a referral to one of our Northville services, don’t hesitate to contact M-LINE for assistance at 800-962-3555. We look forward to connecting with you.

Best,

Audrey Fan
Audrey Fan, MD

PHYSICIANS
Douglas Arenberg, MD
Hillary Loomis-King, MD
Sarah Roark, MD

Kerry Fannon, a cancer patient from Livonia
COMPREHENSIVE MUSCULOSKELETAL CENTER

The U-M Comprehensive Musculoskeletal Center is a leader in improving mobility and quality of life for patients with bone, joint and spine conditions. Musculoskeletal Care at Northville uses various “Care Teams” made of providers from different specialties. Offerings include arthritis and joint care, sports medicine, spine and pain, pediatric and acute care services. Care teams practice collaboratively within the 20,000 square foot suite dedicated to musculoskeletal services. This space was designed for patient convenience adjacent to our Radiology area and features spacious exam rooms, a large cast room, and a separate Orthotics/Prosthetic exam area. A large therapy and exercise area provides private and group therapy rooms, exercise equipment and locker rooms.

SPORTS MEDICINE AND REHABILITATION

MedSport provides comprehensive treatment for all musculoskeletal related injuries for active individuals and athletes of all levels. Our multidisciplinary team offers many sports performance programs as well as transitional programs to bridge a patient’s care from formal therapy to independent programs.

PHYSICIANS
Tariq Awan, DO
Laurie Donaldson, MD
(Additional providers coming – Fall 2014)

ORTHOPAEDIC SURGERY

The University of Michigan Orthopaedic Surgery Program is renowned in treating simple—and complex—conditions of the bones, muscles and joints. We offer diagnosis of laboratory tests and consultations or second opinions with physicians. Our multidisciplinary approach offers experts with training in bone and soft tissue tumors, congenital anomalies, fractures, joint implantation, metabolic disorders, reconstructive problems, spine, sports medicine and trauma. Northville Health Center will include both adult and pediatric Orthopaedic Surgery services.

PHYSICIANS
Matt Abbott, MD
Tariq Awan, MD
Laurie Donaldson, MD
John Grant, MD
Greg Graziano, MD
Jim Holmes, MD
Jeff Lawton, MD
Joseph Maratt, MD
Mark Riederer, MD
(Additional providers coming – Fall 2014)

ORTHOTICS & PROSTHETICS

Our services include education about the various prostheses and orthoses available and the evaluating, designing, fabricating, fitting, and adjusting of orthoses and/or prostheses. We train patients and families on the proper wear and care of orthosis or prosthesis and follow up care as needed.

ORTHOTIST PROSTHETIST
Sara Pschigoda, CO

PAIN MANAGEMENT AND ANESTHESIOLOGY
This clinic offers treatments for all forms of pain — whether the condition is acute, chronic, congenital or the result of a trauma. We coordinate the diagnosis of the pain source and offer non-surgical treatments such as injections and medications.

PHYSICIANS
Goodarz Golmirzaie, MD
Mohit Rastogi, MD

COMPREHENSIVE MUSCULOSKELETAL CENTER

PHYSICAL MEDICINE AND REHABILITATION
Physical Medicine and Rehabilitation evaluates and treats patients with acute and chronic non-operative musculoskeletal complaints. We offer interventions for short-term strains and sprains that have not responded to conventional treatment, and care for chronic, degenerative conditions that cause pain and limit mobility. Northville Health Center will include both adult and pediatric Physical Medicine and Rehabilitation services.

PHYSICIANS
Andrea Aagesen, MD
David Fitch, MD
Ann Hartigan, MD
Troy Henning, DO
Ed Hurvitz, MD
Mary Thieson Goodvich, MD
Suzanne Parke, MD
Sara Pschigoda, MD
John Yarjanian, MD
(Additional providers coming – Fall 2014)
PHYSICAL AND OCCUPATIONAL THERAPY

Our Physical Therapy and Occupational Therapy teams provide expert, customized care to patients facing acute conditions or interruptions to daily living. Occupational Therapy helps patients whose ability to cope with the tasks of daily living is threatened or impaired by developmental deficits, injury, illness, psychological or social disability, or the aging process. Treatment may include assessment and training in the activities of daily living; hand function skills; prosthetics; environmental alterations; positioning techniques; visual, perceptual and cognitive skills; orthotics training; use of adaptive equipment; and involvement in leisure and recreational activities.

Physical Therapy evaluates and treats patients with acute conditions (fractures, burns, wounds, cardiac and pulmonary diseases, back/spinal injuries and trauma) and chronic conditions (vascular diseases, amputations, neurological deficits, orthopedic and musculoskeletal disabilities). The team helps optimize patients’ mobility through treatment and education including therapeutic exercise, mobility training, and airway clearance techniques, use of assistive devices, and heat, cold, light, water and sound therapies.

THERAPY TEAM

MLABS BLOOD DRAW

The MLabs Program offers services on a contractual basis to other hospitals, referring physicians and laboratories.

Lab services are available:
Monday – Thursday 7:00 a.m. – 6:00 p.m.
Friday 7:00 a.m. – 5:00 p.m.
Saturday 8:00 a.m. – 12:00 p.m.

RADIOLOGY SERVICES

Services at the Radiology suite at Northville are available six days a week. A musculoskeletal radiologist is on site each day, helping to offer patients expedited service. We are available for second readings and to answer questions about tests your patients may need. Our schedule is designed to accommodate patients’ schedules.

Patients whose insurance plans require a referral will need to either obtain a referral or sign a waiver before receiving services.

DIAGNOSTIC IMAGING
Monday – Thursday 7:00 a.m. – 6:30 p.m.
Friday 7:00 a.m. – 5:30 p.m.
Saturday 8:00 a.m. – 12:00 p.m.

ULTRASOUND
Both musculoskeletal ultrasounds for bones, tendons and muscles and general ultrasounds are available.
Monday – Friday 8:00 a.m. – 5:00 p.m.

MAGNETIC RESONANCE IMAGING (MRI)
We utilize a state-of-the-art 1.5 Tesla MRI.
Monday – Thursday 7:00 a.m. – 8:00 p.m.
Friday 7:00 a.m. – 7:00 p.m.
Saturday 7:00 a.m. – 5:00 p.m.
