What is the “BFB” (Blue Folder Brigade)?

The Blue Folder Brigade is a group of employees comprised of representatives across UMHHC who are responsible for managing the Blue Folder process. The BFB member is the department’s designated person responsible for being knowledgeable about Blue Folder requirements, the department’s process for ensuring compliance, and coordinating documentation into the folders to prove compliance. Participation in the BFB encourages members to share process information and best practices among other BFB members, help design any changes that need to be made as standards are updated or added, and to be educated on TJC HR standards.
